Product Specifications

Greschner™ Leak Detection Tank Gauge

Model No. LDTG-3

Highlights

- For use on a dual walled, processed water tank to monitor the interstitial space and give a visual account should water enter.
- Machined PVC.
- 1/2" NPT internal thread for mounting.
- Clear PVC tube allows 3" view window.
- Buna o-rings are standard.
- Total length 5-1/2"
- Custom lengths and materials are available.

Above: Greschner™ LDTG-3

Installation

Simply thread LDTG onto a 1/2" nipple. No supporting device is required.

Please Note:

A valve should be installed between the LDTG and the tank, opened only to check for leakage.
